Property Description

Oakwater Ranch features 167 acres of diverse terrain with an excellent blend of productive hay fields, native pasture, and mature hardwoods.

One of the property's defining features is its abundance of water. Three ponds are strategically located throughout the ranch, all fed by Little Brady Creek. The largest pond is supplemented by a 20 GPM water well that has been piped directly to the pond when additional water is needed. Massive Live Oaks, several believed to be centuries old, are scattered throughout the property, creating a setting that is as scenic as it is functional. Additional native hardwoods and brush species provide excellent habitat for whitetail deer, Rio Grande turkey, bobwhite quail, dove, and feral hogs, with the occasional Axis deer also making an appearance.

The combination of productive grazing land, mature hardwoods, dependable water, and exceptional wildlife habitat makes Oakwater Ranch a well-rounded property capable of serving a variety of agricultural and recreational uses.

Improvements

The improvements at Oakwater Ranch have been thoughtfully maintained, creating a property that is ready for immediate enjoyment and operation. At the heart of the ranch is a beautifully updated 2,500 square foot home featuring 4 bedrooms and 2 full bathrooms. Originally designed with a wraparound porch, the home has been expanded to incorporate the enclosed porch into the living area, creating additional functional living space while maintaining its ranch-style character.

Complementing the home is a 30' × 60' renovated barn, providing excellent space for equipment, livestock, or additional storage. Whether your goals include livestock production, hay operations, or simply enjoying the ranch lifestyle, the existing improvements provide a solid foundation for years to come.

Utilities include electricity, a rural water meter, a 20 GPM water well, septic system, and RV hookups for added convenience.
